# Terms

## Disproportionality

Compares a racial or ethnic group to the general population

### Example:

15% of the general population is in the XYZ ethnic group.

20% of the general population is in the ABC ethnic group.

## Disparity

Compares one racial or ethnic group with another racial or ethnic group

### Example:

People in the XYZ ethnic group are 3 times more likely to have a specific outcome than people in the ABC ethnic group.
